The DeVilbiss Heavy-Duty Compressor for **continuous use is the ideal solution for extended care.** This quiet, durable unit proves an ideal choice for continuous delivery of airway humidity and specialized drug delivery.

Approved for use at **home or in an institutional setting**, the DeVilbiss Heavy-Duty Compressor can be used on **adult and pediatric patients**.

**Performance Features**
- Maximum compressor pressure – up to 80 psi
- Compressor free air flow – up to 30 lpm
- Quiet Operation – With a 51 dBA noise level, this is one of the quietest continuous aerosol compressors on the market
- Consistent performance over the life of the unit
- One-year limited warranty

**Design Features**
- ETL Classified to UL60601-1 and CAN/CSA C22.2 601.1 – The UL 60601-1 is the specific approval for institutional use. Many institutions will not allow the use of non UL approved equipment
- Mounting Bracket – The unique internal mounting bracket design [instead of spring mount] makes set-up and transport easier, and assures the least amount of vibration during operation
- Adjustable Flow Regulator – Easy-to-turn knob locks into place, guaranteeing accurate delivery to patients
- Easy to read gauge, accuracy within 2 psi

## Technical Specifications

- **Built to meet the requirements of HCPCS code:** E0565
- **Product Dimensions:** 12.3H X 13.0W X 8.0D
- **Product Weight:** 25 lbs.
- **Maximum Air Pressure:** 80 psi
- **Maximum Liter Flow:** 30 lpm
- **Sound:** 51 dBA
- **Warranty:** 1 Year
- **Safety Approvals:** ETL Classified to UL60601-1, CAN/CSA C22.2 601.1
- **Power Consumption:** 345 watts maximum

## VixOne Nebulizer

- Produces an aerosol with an MMAD of 2.7 microns
- Respirable Fraction – 84% below 5 microns
- At least 18% more medication delivered than with a traditional open system
- Low residual volume (0.7cc) reduces medication waste
- High-capacity medication bowl (<10cc) accommodates varying therapy protocols
- Nebulizes in upright position or at angles up to 45 degrees, allowing patients to receive treatment in their most comfortable position
- Anti-spill tee design provides secure seal with simple 1/4 turn assembly design
