

To create a 300 dpi image file from an Image Library JPEG download in Adobe Photoshop please follow these steps:

- 1.) Download the image you have selected and save to your desktop.
- 2.) Open the image file in Adobe Photoshop.
- 3.) Under Image, select Image Size.
- 4.) Be sure that the check boxes Scale Styles and Constrain Proportions are checked and that Resample Image is NOT checked.

- 5.) Enter 300 for Resolution \_ pixels/inch. The Width and Height will recalculate to the new resolution.

- 6.) Click OK.
- 7.) Save the resized image: File – Save or Save As.
